

A real industrial vacuum in 95 cm height

Compact size but excellent performance

- Model 118 is also L-M-H certified

Model 118 is a singlephase industrial vacuum very ergonomic and easy to use. This model features a practical new container release system that enables you to:

- easily remove the container on castors
- easily lift/carry the container
- easily and effortlessly empty the container.

An optional container fitted with an inlet, a paper bag and a cap to close the upper inlet of the vacuum is available.

Model **118** is a real industrial vacuum, though very small and light. Built in stainless steel, it is equipped with a HEPA filter or with an additional ABS container for hazardous waste, with container fitted with an inlet, a paper bag and a cap.

It is classified according to the new L-M-H norms. (EN 60335-2-69).

Thanks to its wide range of accessories, it is suitable for any industrial sector.

The container release system turns into a practical handle in order to empty it.

Standard accessories kit
