

The most compact, certified and fully configurable threephase 2,2 kW I-Vac

Thanks to the small size and the high performance, CTS threephase range is chosen by companies with tiny environments but need high power. Compact, stable and easy to move, model CTS is really appreciated. CTS range is equipped with a side channel blower placed on the bottom of the chassis, making the vacuums stable and easy to manoeuver. Many details featuring this range: the magnetothermal on/off switch, the vacuumeter to monitor the filter efficiency, the small size, moreover they can work continuously 24/7! Filtration is also top quality: L class star filter of 19500 cm2 grants high filter efficiency and the manual filter shaker allows to clean fastly and easily the filter. Available also upstream absolute filter HEPA H14 and downstream absolute filter ULPA15 to collect very fine dust.

Picture shown may not represent model quoted

- For continuous use
- small size
- silent
- vacuumeter to monitor filter efficiency
- removable container
- L, M, H class to collect hazardous dust
