## Use and Maintenance - SC1500

ATTENTION! Do not use the machine before you have read and understood the Instructions for User Manual

1. Check the battery charge gauge (and 2. Fill-in the tank with clean water. if necessary re-charge)

Check if the Ecoflex bottle is well installed (only for machine with Ecoflex)

3. Check the vacuum hose is connected to the squeegee

4. Check the brush is clean

5. Install the brush on the deck

7. Stand on the machine and turn on the key (squeegee lowers automatically)

8. Press the One-Touch button

9. Adjust to the desired water flow

10. Adjust to the desired chemical concentration

11. Select double pressure if needed

12. Select silent mode if needed

13. Press the forward pedal, select the direction and start operating the machine

14. Open the crew cap and empty the recovery tank with the squeezable hose

15. If necessary, empty the solution tank through the solution valve and clean the filter net

16. Remove and clean the debris tray

17. Wash the recovery tank with clean water

the blades' wear status

19. Take the squeegee off and check 20. Clean the machine using a damp cloth and park it with the recovery tank open

If the machine has been used until the Red light illuminates on the battery level indicator on the machine, a full recharge of the batteries (10-12 hours) will be required. Failure to carry out this this procedure may cause damage to the batteries. Charging the batteries after every use is recommended.

18. Remove debris from the brushes

## PLEASE ENSURE RED SOCKET IS LEFT DISCONNECTED AFTER RECHARGE IF THE MACHINE IS NOT TO BE USED ON A DAILY BASIS
